

Preceptor eLearning Course – Module 1.2

What to find out about your student

Here are some important questions to ask your student before embarking on a preceptor experience:

1. What is your learning style?
2. What are your preferences around feedback?
3. What is your current level of skill and expertise in the area?
4. What are your personal learning goals for this placement?
5. Do you have any special needs?
6. What are the academic requirements of your program?
7. What support is available at your educational institution?
8. Who is your main contact person at the school?
9. Why did you choose this profession?
